

dB Blocker

Customer Order From

Please follow the instructions below to obtain impressions needed to create your new personalized hearing protection.

Any audiologist can take your ear impressions for us. Please give your local, preferred audiologist this form to convey the specs we need on the impression. The audiologist will typically charge to take the impressions, but our price will be reduced to offset this charge.

Once your impressions are done, send them to me with the form below filled completely. **Send to:**

J. Glaser
6906 Rohr Ct SE
Lacey, WA 98503

Your cost for a new pair of dB Blockers* is \$154. Once impressions are received you will receive a request for payment.

Amount paid for impressions \$ _____

** dB Blocker - Discrete Vented / Color: Clear*

Audiologist Guide

Ear Mold Impressions

This is a complete ear mold impression with specifics needed to manufacture a dB Blocker.

- The concha is round and full
- The canal length is past the 2nd bend
- The helix is complete
- Please note the impression also covers the tragus

Impressions without the specifics above will be rejected.

Please contact me with any questions or concerns.
